

NEWGY Upgrades & Accessories

RECYCLING NET **UPGRADE KIT**

Transforms your Robo-Pong 1040 into a 2040. Get ready for non-stop action. Play until you drop! Get true aerobic conditioning from your robot. Includes full net system, video, instructional manual, Collector Plate, and Side Net Extenders. Simple instructions make the conversion quick and easy.

ROBO-PONG **540** **UPGRADE KIT**

Converts your Robo-Pong 540 into a 1040! More than doubles ball capacity and increases ball speed and frequency. Adds oscillation for side-to-side delivery. Includes Bucket Extender, full-size Control Box, oscillator controls, and more powerful transformer. Bucket Extender available separately.

40mm **UPGRADE KIT**

Easily and quickly retrofit your Robo-Pong 2000 to accept 40mm balls. Convenient ball switch lets you use either the traditional 38mm ball or the new international standard 40mm ball. Includes Wedge Filler for improved ball feed. No trade in required – you keep your old robot body.

PONG-MASTER **INTERACTIVE ELECTRONIC GAME**

Plug Pong-Master in, and your robot becomes a Nintendo® style entertainment machine. Can you beat the robot at Pong-Master? It's tough. Vary the settings from beginner to world-class to test your accuracy, consistency, and ability to relax under pressure. Use it with the supplied targets for a fun, entertaining game or without the targets as a workout timer.

ROBO-TOTE **CARRYING CASE**

Fit your model 2040 or 2000 robot into this carrying case and take it with you wherever you go. Protects your robot from dust or scratches. Will not fit other Newgy robot models. Includes adjustable carrying strap and pocket for Pong-Master targets or other items.

PONG-PAL **"THE QUICKER BALL PICKER UPPER"**

Pick up balls easier and quicker with Pong-Pal. Even retrieve balls under tables or in other hard-to-reach places. Its unique two-piece design lets you carry it in your sport bag or Robo-Tote. Works with either 38mm or 40mm balls.

Robo-Caddy

Easily control the robot's height, distance from table, and angle. Remarkable simulation of away-from-table shots like loops, lobs, and chops. Also use as a ball holder for multi-ball or serve practice. Fits all robot models. Connector Extension Cable is available separately and lengthens Connector Cable from 10 to 20 feet and is highly recommended.

Ball Catch Net II

Captures and collects your returns for quick and easy manual ball recycling. Use with Newgy robots in ball buckets or for service practice. Captures and funnels balls into a bucket (not supplied). Optional Side Nets block angled shots and direct them into the main net. Assembly required.

Tray Liners

These custom-fitted liners absorb ball impact and soften ball impact sound when attached to your model 2000 or 2040 ball trays. Also helps reduce effects of static. Priced per pair.

Robo-Balls

Selected especially for use with Newgy Table Tennis Robots. Ideal for recreational play or multi-ball training. Durable. Long-lasting. Available by the gross (144) or Dozen (12) in orange or white 40mm (2-Star) or orange 38mm (1-Star).

Side Net Extender

Gives 1 to 2 inches of forward-backward adjustability in the length of the side nets on models 2040 and 2000. Prevents fraying of your table net. Allows quicker attachment to or removal from your table's net. Now included with all 2040's!

Carrying Strap

This sturdy nylon strap replaces the standard rubber strap on models 2000 & 2040. Assures adequate strength to support the entire weight of your robot. Essential if you pick up your robot by the tray strap.

Barrier

Use wherever you want to block table tennis balls from going, to separate a large room into individual courts, or to create aisles and queue lines. Easy to assemble and are 7' 8" long and 27" high. Made with a sturdy snap-together steel frame with fully enclosed end legs and reinforced corners for long-lasting durability. Feet rotate 90° for compact storage and transport.

Applause Paddle

Excels at touch and control. Perfect for all-round play. Elastic inverted topsheet affords good spin to learn and execute high spin shots like loops and serves. Soft sponge rubber provides good speed and high control. Light weight and size of its head and handle are ideal for children, but still comfortable for adults. Straight handle with 1.9mm Newgy Omega rubber in red and black. Approved by USATT.

Drive Cleaner

Special cleaning solution for the Ball Discharge Wheel and Friction Block in all Newgy robots. Increases grip and restores consistency to ball trajectory. Used and highly recommended by the Newgy Service Department. Can also be used as an excellent cleaner and grip restorer for rubber on your racket.
